[drtaylor@fremantlechiropractic.com](mailto:drtaylor@fremantlechiropractic.com)

Following graduation from Macquarie University in 2004 with a Master of Chiropractic I commenced private practice in Fremantle, Western Australia. I have served various roles in my capacity as a company director of the Chiropractors Association of Australia National CAAN.

My purpose is to assist in the ongoing development of chiropractic in Australia so that as a profession we can continue to deliver high quality health services that contribute to the wellbeing of the community.

## Professional Service and Activity

- Director on the board of the Chiropractors Association of Australia National. Currently holding position as treasurer and working as Western Australia regional representative for the board
- Chair of the Chiropractors Association of Australia continuing professional development committee
- Facilitator of the Professional Services arm of the Australasian College of Chiropractic and a member of the college management committee

- Chair of the Chiropractors Association of Australia committee on Specialisation and Special Interest Groups. This position is currently examining pathways leading to endorsement and specialist chiropractor registration segments under the new national registration scheme. We are currently working with Special Interest Groups within the profession with a view to developing these groups as way towards generating standards and qualifications to enable endorsement and ultimately specialist recognition for chiropractors
- Member of the Chiropractors Board of Australia Joint CPD Committee
- Chair of the Chiropractors Association of Australia National Student Liaison committee
